EDUCATION

Institute of Engineering and Management, Kolkata, WB
Bachelor of Technology in Computer Science & Information Technology

Jul. 2023 – Jul 2027
CGPA: 8.58/10 (Through Semester 6)

TECHNICAL SKILLS

Languages: Python, Java, SQL (PostgreSQL)
Frameworks: Django, Spring Boot, Next.js
ML & AI: PyTorch, TensorFlow
Tools: Git, Docker

EXPERIENCE

Full Stack Engineer Intern – Ramaesis RPL

June 2026 – Present

Remote

- Architecting a full-stack workflow automation platform using Next.js, Django, and PostgreSQL to streamline task tracking, inventory management, and dispatch operations for **10–15 employees**
- Designing and implementing role-based access control (RBAC) with hierarchical permissions and workflow state machines to manage organizational workflows
- Building RESTful APIs with Django REST Framework for seamless frontend-backend integration and real-time workflow updates
- Technologies:** Next.js, Django, PostgreSQL, Django REST Framework, Git

Freelance Frontend Web Developer – Tour Booking Platform

May 2026 – June 2026

Remote

- Built responsive tour booking platform using Next.js frontend and Cloudflare Workers backend with KV storage for tour inventory management
- Implemented dynamic tour availability display, filtering, and contact integration (WhatsApp, phone) for seamless customer inquiries
- Optimized performance and SEO; configured CORS headers and deployed via Cloudflare Pages with automated CI/CD
- Technologies:** Next.js, Tailwind CSS, Cloudflare Workers, KV Storage, REST APIs

PROJECTS

ReTAQMLN²: Real-Time Air Quality Monitoring Using Liquid Neural Networks

- Engineered an IoT air quality monitoring system using Raspberry Pi 5 and sensors, collecting **4 environmental parameters**
- Developed a Liquid Neural Network with **R² scores of 0.78/0.81** for PM_{2.5}/PM₁₀ prediction
- Processed **10,000+ time-series samples** and built a real-time dashboard with **sub-second latency**
- Tech:** Python, PyTorch, React, Firebase

CodeDuel: Real-Time Multiplayer Competitive Coding Platform

- Built a real-time coding platform with WebSocket updates, sandboxed execution, and JWT-based authentication
- Supported concurrent users, coding rooms, and **3+ programming languages**
- Tech:** Spring Boot, Spring Security, React, PostgreSQL, Docker

RELEVANT COURSEWORK

Data Structures and Algorithms, Database Management Systems, Machine Learning Fundamentals, Computer Networks
